Welcome to Our 25th Anniversary Catalog

For 25 years, our passion for light and design has been the driving force behind our work. From our small beginnings to our current position as a renown provider of exclusive designs and especially lighting. We have consistently strived to combine aesthetics and functionality to create lighting that not only illuminates spaces but also inspires and captivates.

This anniversary catalog is a celebration of our journey through a quarter-century of creativity and innovation. We present our latest collections, reflecting our commitment to quality, craftsmanship, and pioneering design. Each lamp in our range is the result of vibrant creativity and a desire to offer more than just lighting - we aim to provide art pieces that can transform any room with their expressive use of creativity and color.

Our designs are not just about illumination; they are about creating expressive atmospheres that bring spaces to life. The bright colors and innovative forms in our collections highlight the beauty of creativity and the power of light to evoke emotions and enhance environments.

All the best,

Design by Us

CELEBRATING 25 YEARS
1999 - 2024

OUR JOURNEY

The Design by Us journey started in 1999 as a playground for imaginative and unconventional approaches to how lighting and interior designs should be created.

The design studio began as a workshop where one-of-a-kind lamps and furniture were crafted – always with a “more is more” approach to the design process. Our source of inspiration is multidimensional, and perhaps that is why we are not easily defined. We salute the entrepreneurial spirit and the idea of following the desire to create.

Today, we have our own design vocabulary, drawing inspiration from fashion and fantasy, along with a generous dose of humor and curiosity. We move in the borderland between function and decoration. Too much, some would say, but this is exactly what our mantra is all about.

ENDLESS

INTRODUCING THE ENDLESS WALL LAMP

With its sleek design and a mirror front, the Endless Wall Lamp transcends the ordinary, becoming a mesmerizing beacon of innovation and illumination. A radiant fusion of form and function, this exquisite lamp is a visionary creation that redefines traditional lighting.

The mirror's inclusion isn't just ornamental; it's a deliberate choice to create an immersive experience. The front of the Endless Wall Lamp serves as a reflective canvas, amplifying radiant luminosity and creating an illusion of infinite radiance as light emanates from within.

Crafted with precision, the Endless Wall Lamp embodies a modern aesthetic, seamlessly blending into any space. The mirror front not only adds a touch of glamour but also serves a dual purpose by visually expanding the space it occupies.

BALLROOM

TIMELESS AND EXCELLENT

The Ballroom lamp is like a chameleon that fits into all environments and therefore we love it. The shape and the many colours to choose from makes it a favorite everywhere.

The Ballroom lamp series consists of pendants, wall lamps, a table lamp, a floorlamp and a chandelier – all with the well known mouthblown glass dome.

The Ballroom series is available in 7 colours and with gold or black base.

LOTUS

FLOWERY LIGHTING

This lamp is inspired by the beautiful and symbolic lotus flower. The shape of the lamp looks like the lotus flower just before it blooms. When the lamp is switched on, the wavy glass creates rays of light shaped like the blooming leaves of the flower. The glass is handmade and the waves in the glass are therefore unique. Just like the lotus flower.

TRIP

PORTABLE ILLUMINATION

Clean lines and simple design in beautiful materials. We have thought about every detail in our new portable and rechargeable LED lamp. Trip's sculptural design in clean lines, combined with beautiful materials adds refined aesthetics and exclusivity.

Trip offers both outdoor and indoor illumination. Use Trip in the middle of the dining table, on a bookshelf, the window sill, on the nightstand or just take it outside – the possibilities are endless as there are "no strings attached".

The lamp can be set to 3 brightness levels, and the lighting time is approximately 30 hours on the midlevel.

IP44 Certified.

TRIP 2.0

NEW SHAPE – STILL PORTABLE

The Trip 2.0 Portable Lamp has received a twist with its newly redesigned shade and base. This transformation is small and yet it merges classic elegance with contemporary flair, resulting in a new piece named Trip 2.0.

TRIP WALL

EXCLUSIVE APPEARANCE

The TRIP WALL lamp spreads a soft atmosphere with the light fanning out elegantly. The sculptural form, featuring polished marble and mouth-blown glass, gives Trip Wall an exceptionally exclusive appearance.

Every detail in our new interpretation of the wall-mounted LED lamp is considered carefully. This indoor wall lamp presents clean lines and simple design in beautiful and classic materials. The Trip wall base is a half-circle of marble, upon which a glossy glass is mounted.

Mount it on the wall, and you can decide where you want the light opening to be. You can create your own wall art with the lamp. Use it as cozy lighting in the kitchen, hallway, stairwell, bedroom or ...

THE VINTAGE LAMP & THE MURANO VINTAGE LAMP

HANDMADE LIGHTING

The Vintage Lamp and The Murano Vintage Lamp are the ideal statement pieces for any interior design, consistently delivering a surprising and unique aesthetic.

This lamp design adheres to principles of reusability, featuring a base crafted from a mix of vintage glasses, including colorful vintage Murano glasses from Italy. Each piece of glass is carefully handpicked in various shapes, colors, and patterns, then transformed into The Vintage Lamp intended for long-lasting enjoyment.

Each Vintage Lamp is unique, making every creation one of a kind. Handcrafting and assembling are carried out in our design studio in Denmark, with all shades handmade in our Shade Salon.

MARBLE ART

SMOOTH ADJUSTABLE DOWN LIGHT

Marble Art is an elegant pendant providing a direct downlight where the width of the light cone can be adjusted from narrow to wide.

The base is a smooth polished marble cylinder with metal suspension. Each lamp has a unique pattern due to the nature of the marble stone.

Marble Art is available in 5 colours. Charcoal, brown, golden, and sand with gold coloured metal and white with black coloured metal.

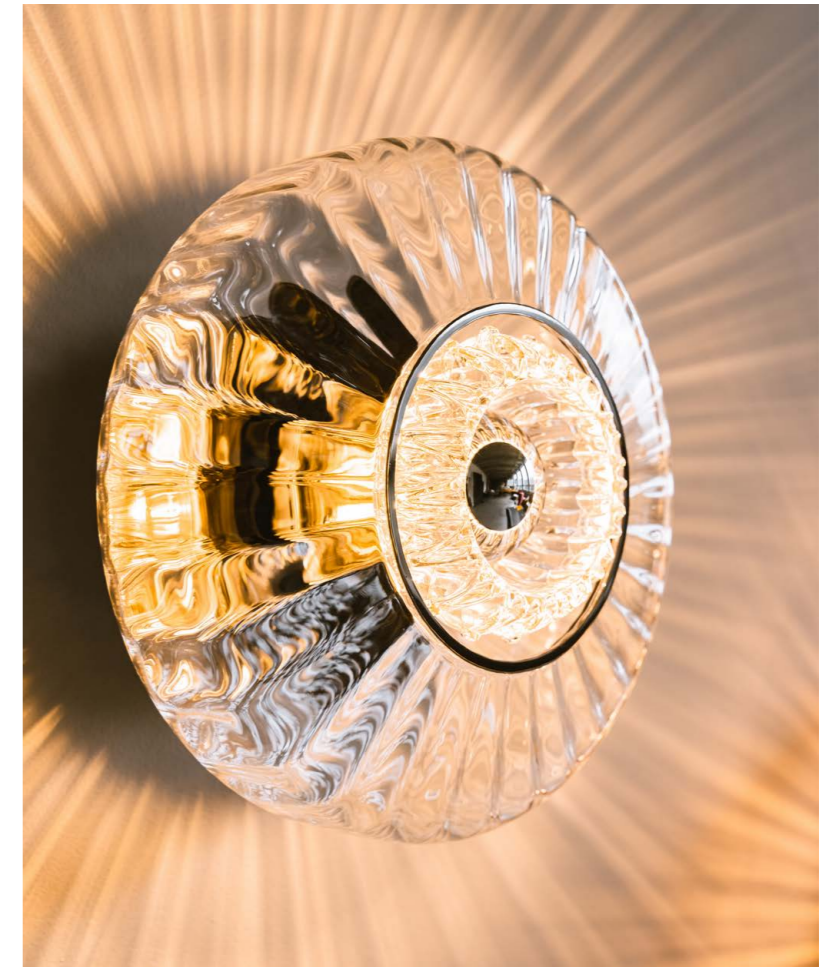

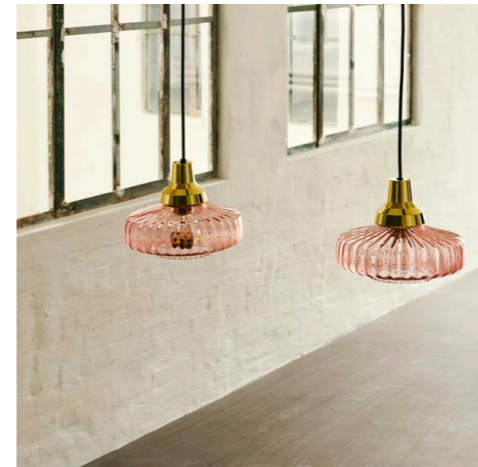

NEW WAVE OPTIC

A LAMP SERIES WITH OPTICAL EFFECT

Our iconic New Wave Optic Wall Lamp is designed to create an illuminating experience wherever it is placed. The handblown wavy glass casts light in beautiful waves on the wall, creating a stunning effect. The clear Eyeball insert intensifies these waves as shown here.

The New Wave Optic Wall Lamp is also available in two sizes and comes in clear, opal, rose, amber and smoke.

The New Wave Optic Wall lamp is made in an outdoor version too. It is available in clear glass with a black base. This outdoor lamp is IP 65 rated.

LIMBO

BALANCING LIGHT

The Limbo light is a modern and artistic pendant – it is designed with a wish to play with illumination.

The lamp design challenges traditional light design as well as gravity as Limbo is made of marble stone. We call it Limbo as this lamp has no fixed direction.

It can be set in all directions – up, down, vertical or horizontal. The hand cut marble base is accompanied by two special made lightsabers that create the artistic appearance of Limbo. The lamp will balance beautifully over the dining table, in the kitchen, or the hall. Limbo is available in Carrara marble with black base or Emperador marble with gold base.

NUTTY

INSPIRED BY NATURE

Nature has always been a rich source of inspiration for various forms of art and design as it offers an abundance of organic shapes, patterns, and forms.

We have translated the fine nuts of the oak tree into our Nutty lamp – but without letting go of our playful and unique style of lighting.

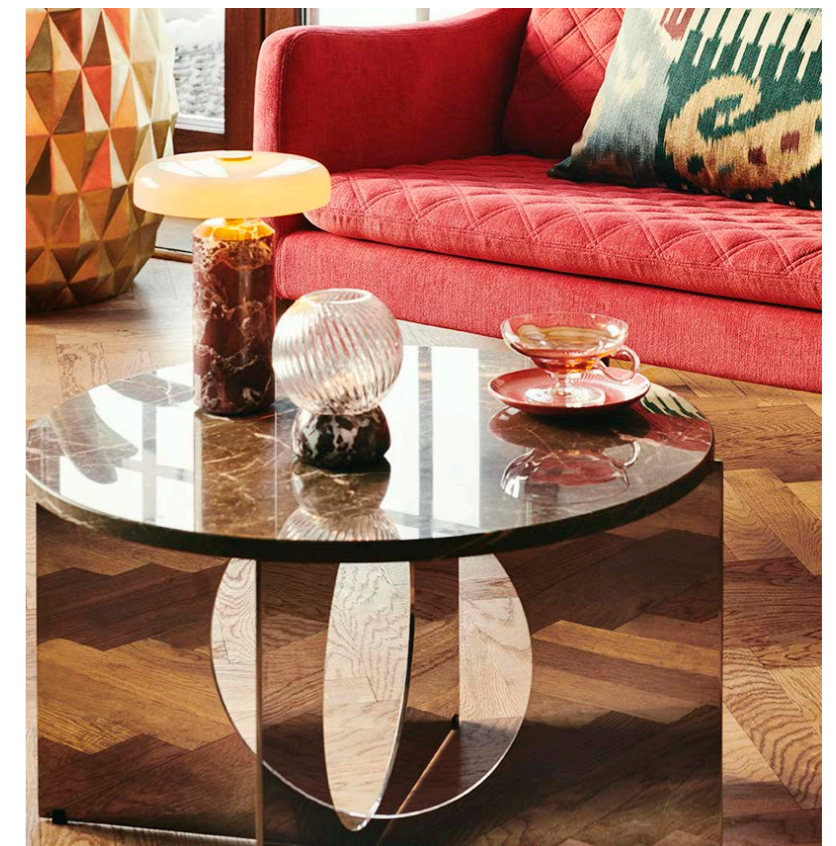

Nutty is available in 18 different combinations. Two sizes in gold, black or chrome bases combined with a glass dome in clear, brown or smoke.

TWIST OF MARBLE

TWISTED LIGHTS

Twist of Marble is a series of candleholders. A classic fusion of marble and twisted glass defines this small hurricane. With its rounded form, it brings a cozy and stylish vibe to any location where you choose to place it.

SHAHIN

LIKE FLOATING ON A CLOUD

The Shahin lamp is our take on the classic opal white lamp. We have mixed the most popular elements of lighting into one by using opal glass and brass.

With a feminine ease the light is floating from the core of the lamp and sheds a soft diffuse light.

The Shahin series consist of two pendant sizes, and a table lamp.

DESIGN BY US / Liberty

LIBERTY

SIMPLE FUNCTIONALISM

The design of the Liberty lamp series is inspired by the idea of creating a modern lamp collection with clean-cut lines and sharp profiles that align with the Danish modern design tradition, combining industrial aesthetics with simplicity and functionalism. The lamp base features simple lines, allowing the light source itself to define the design. The Liberty lamp collection is available in brushed brass and black powder-coated metal, and it includes five different designs within the series.

THE DUO LAMP

HANDMADE LAMPSHADES

Introducing the Duo Lamp, – combining elegance and modern aesthetics. This handmade pendant lamp features a unique dual-tone design, The top half is crafted in a sophisticated colored fabric, while the bottom half is a soft, diffused cream white, creating a harmonious balance of color and light.

Handcrafted with attention to detail, the Duo Lamp is customizable in any color combination with the cream white base, allowing you to match it perfectly with your decor. Its geometric shape ensures that it not only illuminates but also enhances the visual appeal of any room. The high-quality fabric shades diffuse light beautifully, casting a warm and inviting glow perfect for dining areas, living rooms, or stylish office spaces.

Available in three sizes, the Duo Lamp offers flexibility to fit various spaces and design needs. Whether suspended over a dining table, used to brighten a cozy reading nook, or accenting a large living area, the Duo Lamp adds a touch of refined style to your home.

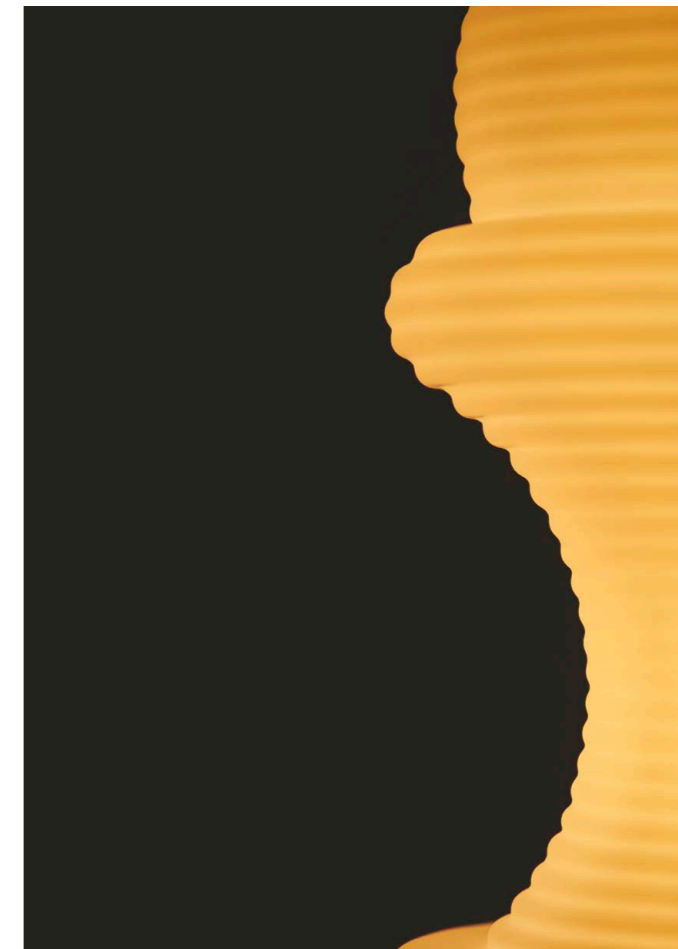

PARIS 1920

PARISIAN PENDANTS

The Paris 1920 Pendant is our interpretation of the classic white glass pendants found in Parisian brasseries. We have a penchant for exploring the beauty of illumination.

The Paris Pendant is crafted from opal-colored rippled glass with a black base. By adding lines and curves, we have transformed the round lamp into an imaginative drop of light.

The Paris 1920 is available in two sizes.

NIGHT RIDER

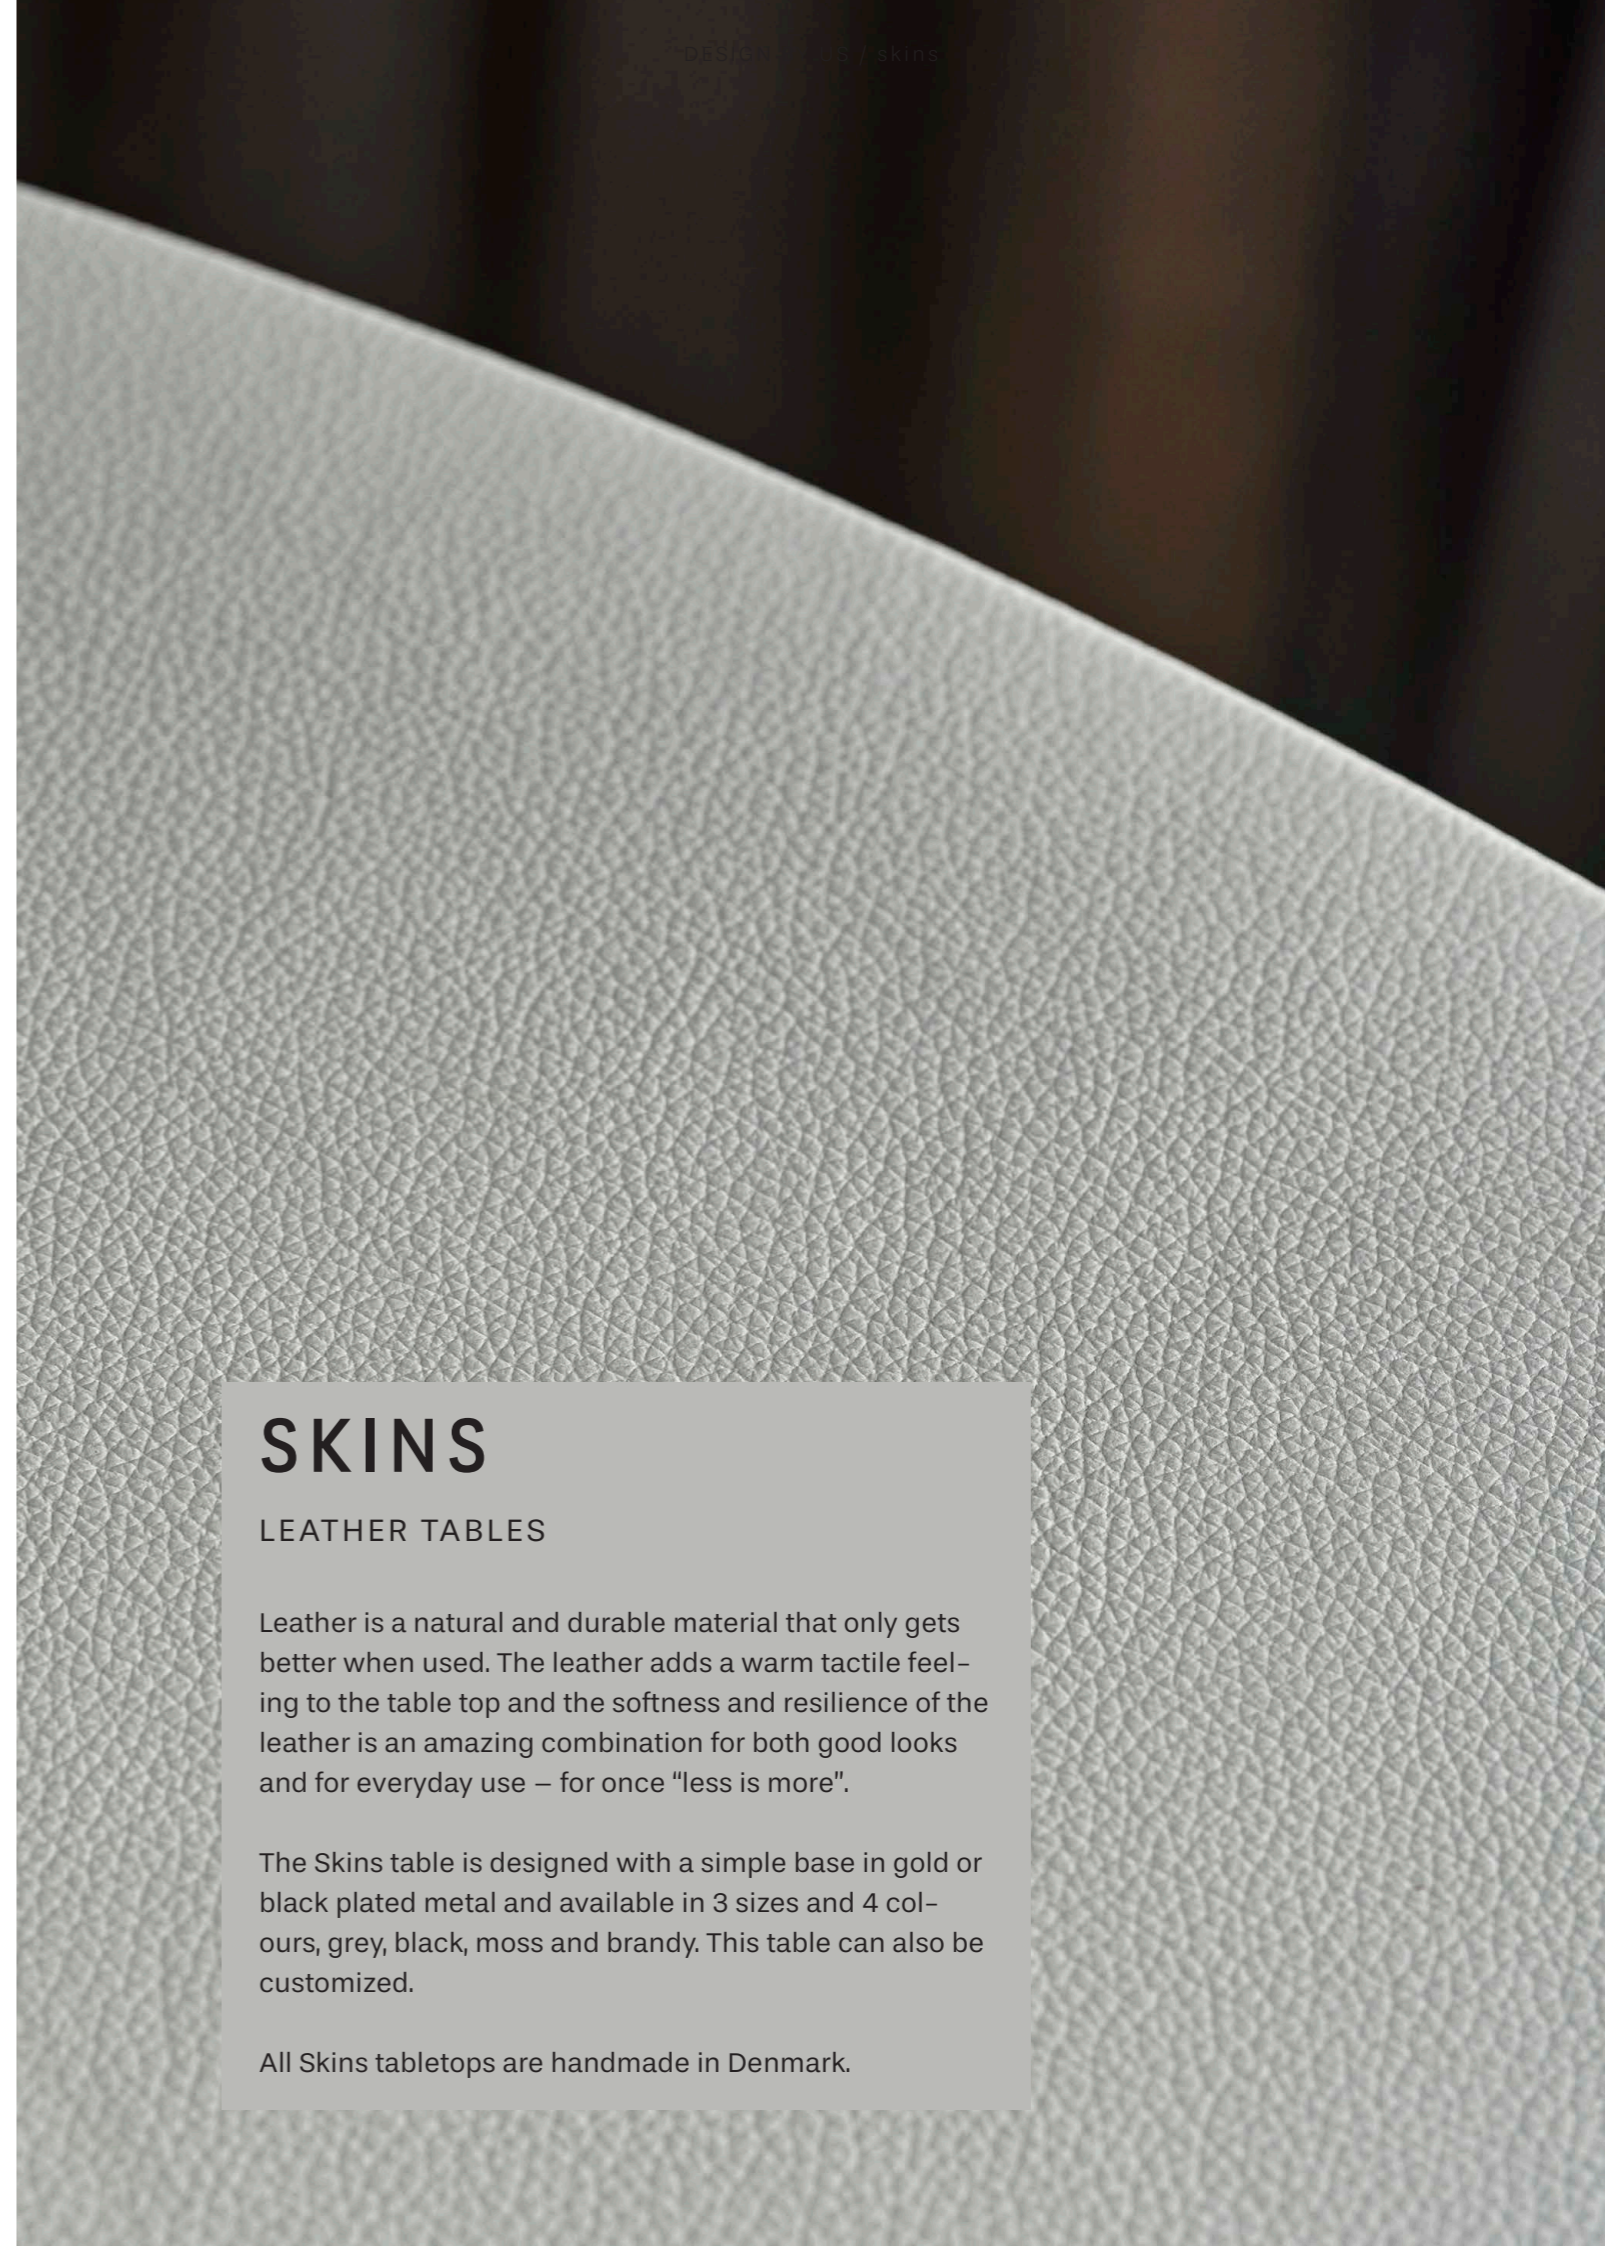

POWERFUL LIGHT EXPERIENCE

This bold and beautiful lamp will add character to any wall outside – or inside. The rough look in the yet classical material is the perfect combination.

The design will add a powerful light experience to the surroundings. The Night Rider lamp has deserved its cool name. The Night Rider is available in polished brass, raw brass and in black.

IP 54 Approved.

SKINS

LEATHER TABLES

Leather is a natural and durable material that only gets better when used. The leather adds a warm tactile feeling to the table top and the softness and resilience of the leather is an amazing combination for both good looks and for everyday use – for once “less is more”.

The Skins table is designed with a simple base in gold or black plated metal and available in 3 sizes and 4 colours, grey, black, moss and brandy. This table can also be customized.

All Skins tabletops are handmade in Denmark.

CASABLANCA

EXCEPTIONAL SEATING

A dining chair that recognizes the Danish design tradition of using nature's own materials combined with our perception of function, shape and looks. Casablanca is made for cozy long dinners or the perfect chair for business meetings. The stylish look with rounded edges combined with great sitting comfort makes this chair an obvious choice for both dining and business.

The rounded contours of the upholstery, the inviting seat and the elegant design language of the frame all complement each other in the best way. Casablanca can be customized as desired, as both the seat, backrest and frame can be produced in customized colours and materials.

Casablanca is made in Denmark.

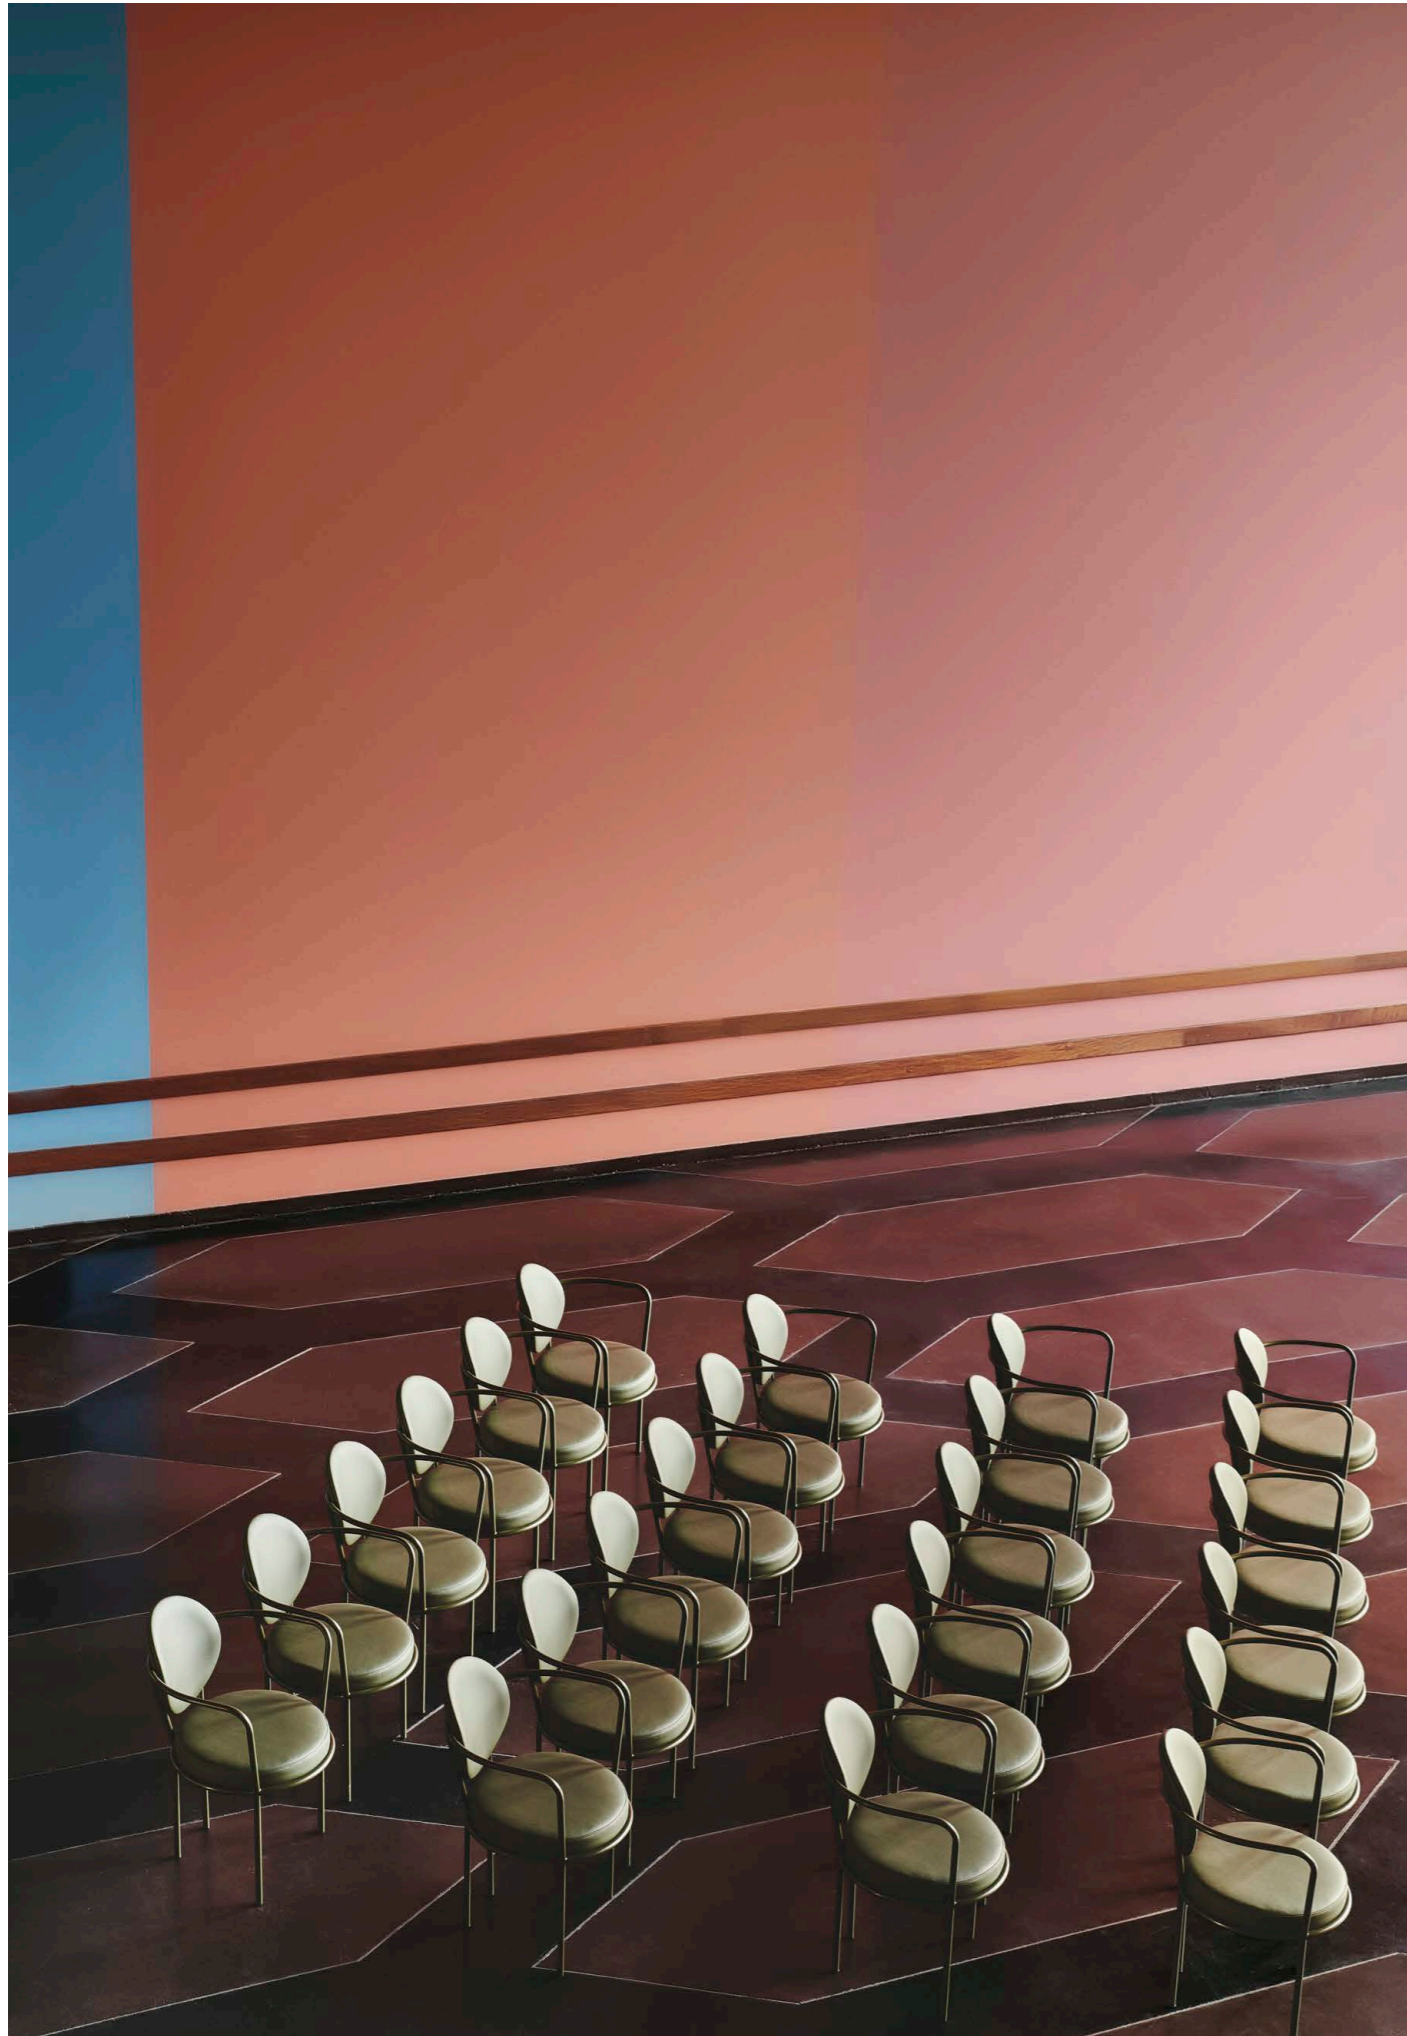

THIS IS ART

IT'S AN ILLUSION

This Is Art Table is a very sculptural coffee or side table. The shape of the base is like an optical illusion with an alluring effect. The table is available with marble or composite top with either chrome or gold base.

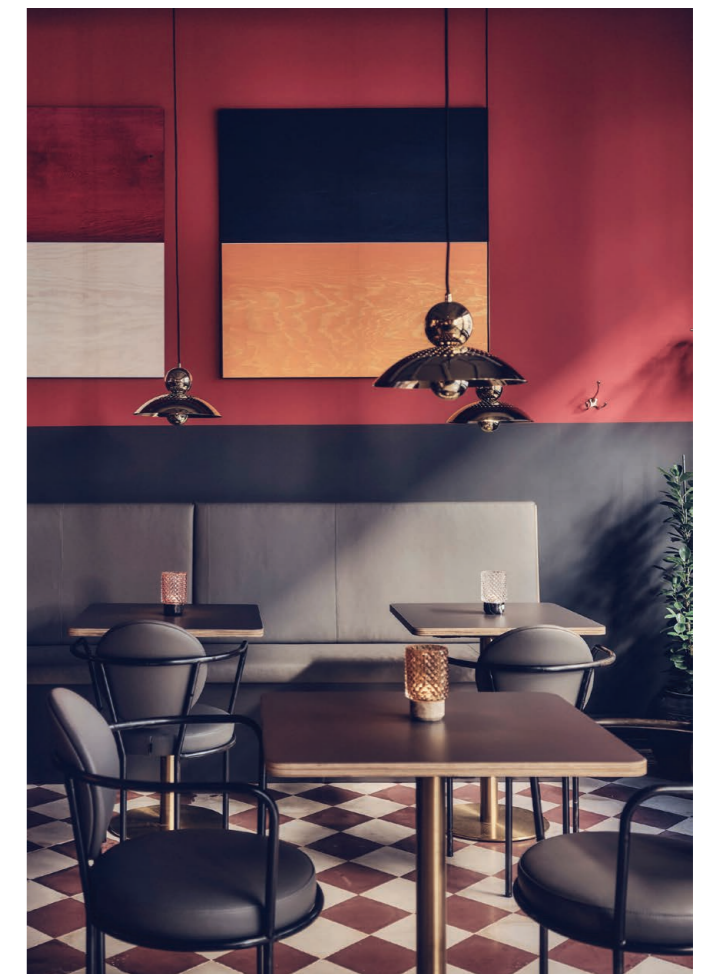

OUR PROJECTS

Our designs are very suitable for interior projects – whether it is lighting or furniture. We always work with certified materials and we can customize almost all of our furniture to fit specific interior designs.

Design by Us is all about challenging your perception of design – turn the obvious upside down and twist it. That is what we do – and we are good at it!

WE ARE DESIGNERS

Design by Us was established in 1999 by Rasmus Larsson as a playground for imaginative and untraditional approaches to how lighting and interior designs should be created. Today, we have our own design vocabulary – we are all about challenging your perception of design turning the obvious upside down and twist it.

Our design studio is based in Copenhagen in an area that offers a unique blend of history, community, and modern urban life. The cultural diversity contributes to the area's appeal and make it a vibrant part of the city. We develop our designs from the first inspiration to the actual materialization of the product. We are proud of our inhouse designers who convert our DNA to actual designs. Colour and form play a senior role in our designs and become a powerful tool for storytelling by transforming space, and evoking emotions.

RASMUS

Rasmus has a strong artistic vision and a deep understanding of how lighting can impact an environment. His immersion in design is the essential aspect of Design by Us. Design has become his lifestyle.

Favorite design: Shahin

Why: Opal glass, brass and light – the perfect combination for an evergreen.

SIMON

Simon poses a blend of functional creativity, technical expertise, and has a passion for creating designs.

Favorite design: Trip

Why: Light with freedom.

NICOLAI

Nicolai has an impressive eye for colours and shapes that complement the purpose of the room, enhance its visual appeal, and create the desired ambiance.

Favorite design: Endless

Why: Futuristic by bringing a new concept to lighting.

GABY

Gaby designs and handcrafts all our fabric shades, skins tables, and upholstery in our Copenhagen showroom. Here, she blends creativity with impeccable craftsmanship. Gaby's work consistently plays a significant role in our bespoke designs for projects.

Favorite design: Vintage Lamp

Why: Handmade and every lamp has its own unique story.
