## WHEN DESIGN AND ART BREAK EVEN

When art and design “break even” signify a harmonious blend of creativity and functionality, where artistic expression enhances the functionality and purpose of the design. In our design process we seek the synergy between artistic expression and the functionality of the item by integrating both elements in every design we make. Our mission is to transform ordinary lighting into an artistic illumination.

# NUTTY

## INSPIRED BY NATURE

Nature has always been a rich source of inspiration for various forms of art and design as it offers an abundance of organic shapes, patterns, and forms.

We have translated the fine nuts of the oak tree into our Nutty lamp – but without letting go of our playful and unique style of lighting.

Nutty is available in 18 different combinations. Two sizes in gold, black or chrome bases combined with a glass dome in clear, brown or smoke.

# WE ARE DESIGNERS

Design by Us was established in 1999 by Rasmus Larsson as a playground for imaginative and untraditional approaches to how lighting and interior designs should be created. Today, we have our own design vocabulary - we are all about challenging your perception of design turning the obvious upside down and twist it.

Our design studio is based in Copenhagen in an area that offers a unique blend of history, community, and modern urban life. The cultural diversity contributes to the area's appeal and make it a vibrant part of the city.

We develop our designs from the first inspiration to the actual materialization of the product. We are proud of our inhouse designers who convert our DNA to actual designs. Colour and form play a senior role in our designs and become a powerful tool for storytelling by transforming space, and evoking emotions.

## RASMUS

Rasmus has a strong artistic vision and a deep understanding of how lighting can impact an environment. His immersion in design is the essential aspect of Design by Us. Design has become his lifestyle.

**Favorite design:** Shahin

**Why:** Opal glass, brass and light - the perfect combination for an evergreen.

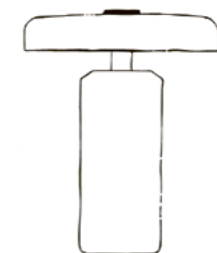

## SIMON

Simon poses a blend of functional creativity, technical expertise, and has a passion for creating designs.

**Favorite design:** Trip

**Why:** Light with freedom.

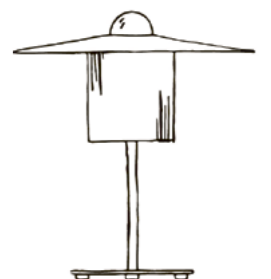

## NICOLAI

Nicolai has an impressive eye for colours and shapes that complement the purpose of the room, enhance its visual appeal, and create the desired ambiance.

**Favorite design:** Ball on Top

**Why:** Modern and at the same time wildly old school.

## THE VINTAGE MURANO LAMP

One of our signature designs is The Vintage Lamp.

This design abides by the principles of reusability. The glasses used for the lamp base are partly vintage glasses and colourful glasses from Murano. The lamp shade is handcrafted in our shade salon in Copenhagen and specially made for the Vintage Murano Lamp.

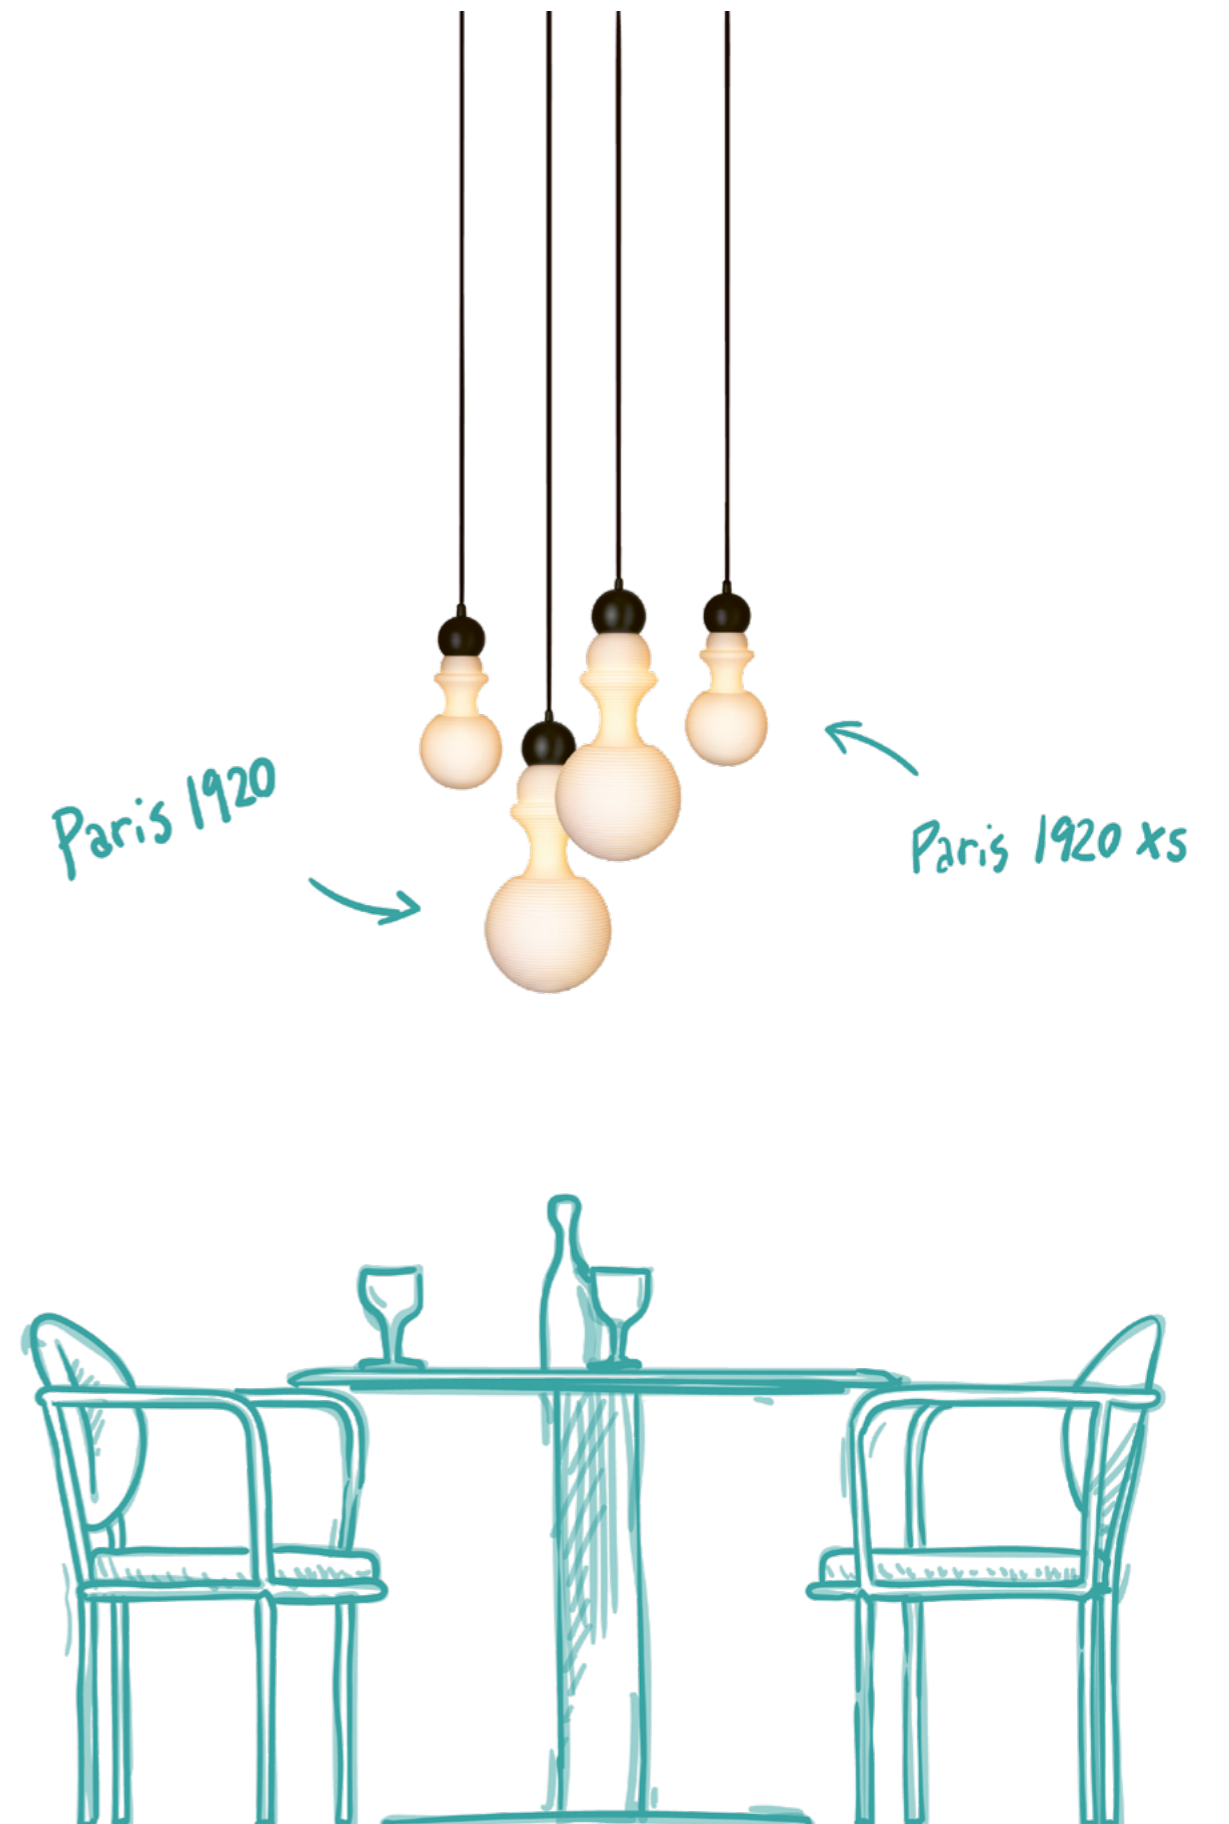

## PARIS 1920

"WE ALWAYS HAVE PARIS"

The Paris Pendant is quite unique. It is our take on the classical white glass pendants seen in the Parisian brasseries. We have a weakness for playing with the beauty of illumination. Paris is made of opal coloured rippled glass with a black base. We added lines and curves and transformed the round lamp into an imaginative drop of light.

Paris 1920 is available in two sizes.

## LOTUS

### FLOWERY LIGHTING

This lamp is inspired by the beautiful and symbolic lotus flower. The shape of the lamp looks like the lotus flower just before it blooms. When the lamp is switched on, the wavy glass creates rays of light shaped like the blooming leaves of the flower. The glass is handmade and the waves in the glass are therefore unique. Just like the lotus flower.

## SHAHIN

LIKE FLOATING ON A CLOUD

The Shahin lamp is our take on the classic opal white lamp. We have mixed the most popular elements of lighting into one by using opal glass and brass.

With a feminine ease the light is floating from the core of the lamp and sheds a soft diffuse light.

The Shahin series consist of two pendant sizes, and a table lamp.

# CASABLANCA

## EXCEPTIONAL SEATING

A dining chair that recognizes the Danish design tradition of using nature's own materials combined with our perception of function, shape and looks. Casablanca is made for cozy long dinners or the perfect chair for business meetings. The stylish look with rounded edges combined with great sitting comfort makes this chair an obvious choice for both dining and business.

The rounded contours of the upholstery, the inviting seat and the elegant design language of the frame all complement each other in the best way. Casablanca can be customized as desired, as both the seat, backrest and frame can be produced in customized colours and materials. Casablanca is made in Denmark.

# CASABLANCA

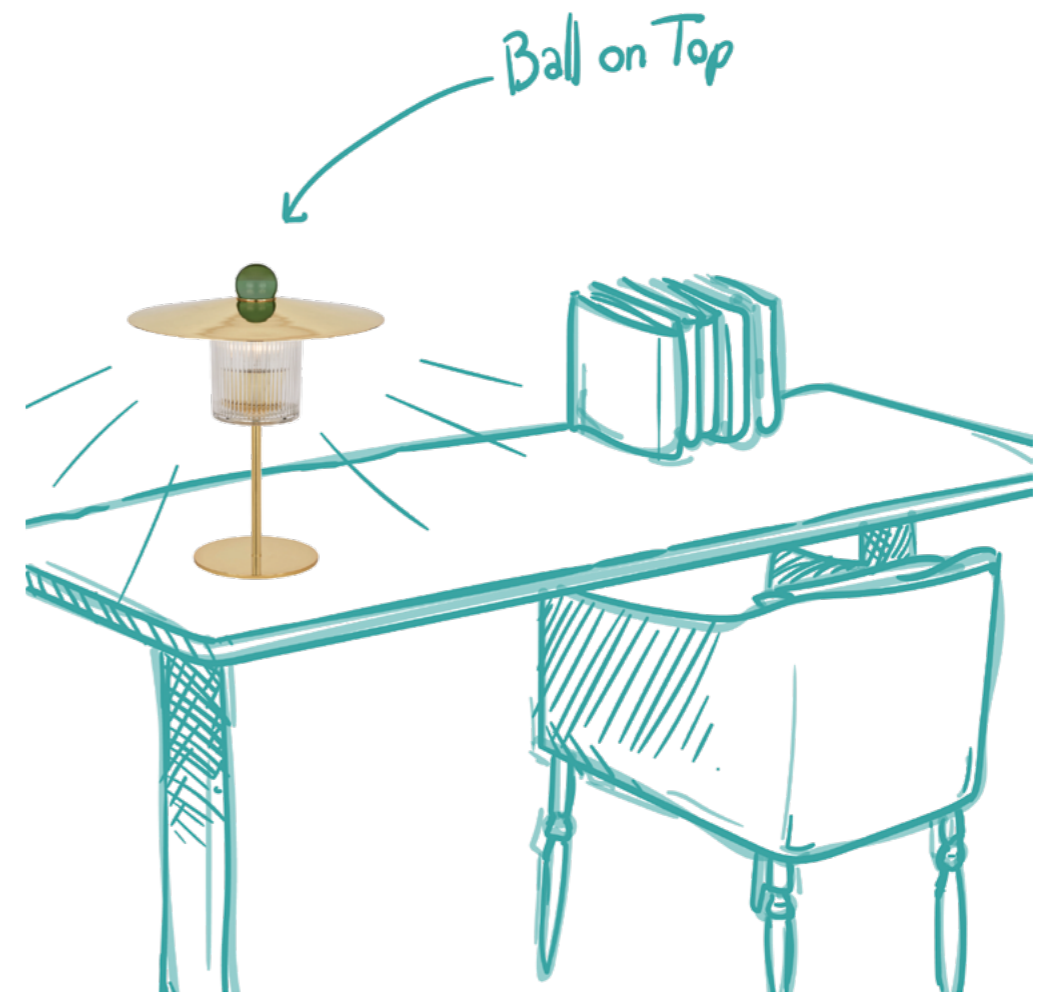

A CHAIR DESIGNED FOR LONG DINNERS AND  
GOOD TALKS.

MADE IN DENMARK

# BALL ON TOP

THE CLASSIC TWIST

The classic banker's lamp has been upgraded with a twist!

The Ball on Top table lamp is designed as a celebration to the traditional banker's lamp - we are keeping the classic look but adding a modern shape. The mix of the gold base, clear glass and retro green ball on top will add a sophisticated touch to any location.

# SKINS

## LEATHER TABLES

Leather is a natural and durable material that only gets better when used. The leather adds a warm tactile feeling to the table top and the softness and resilience of the leather is an amazing combination for both good looks and for everyday use – for once “less is more”.

The Skins table is designed with a simple base in gold or black plated metal and available in 3 sizes and 4 colours, grey, black, moss and brandy. This table can also be customized.

All Skins tabletops are handmade in Denmark.

## MARBLE ART

### SMOOTH ADJUSTABLE DOWN LIGHT

Marble Art is an elegant pendant providing a direct downlight where the width of the light cone can be adjusted from narrow to wide.

The base is a smooth polished marble cylinder with metal suspension. Each lamp has a unique pattern due to the nature of the marble stone.

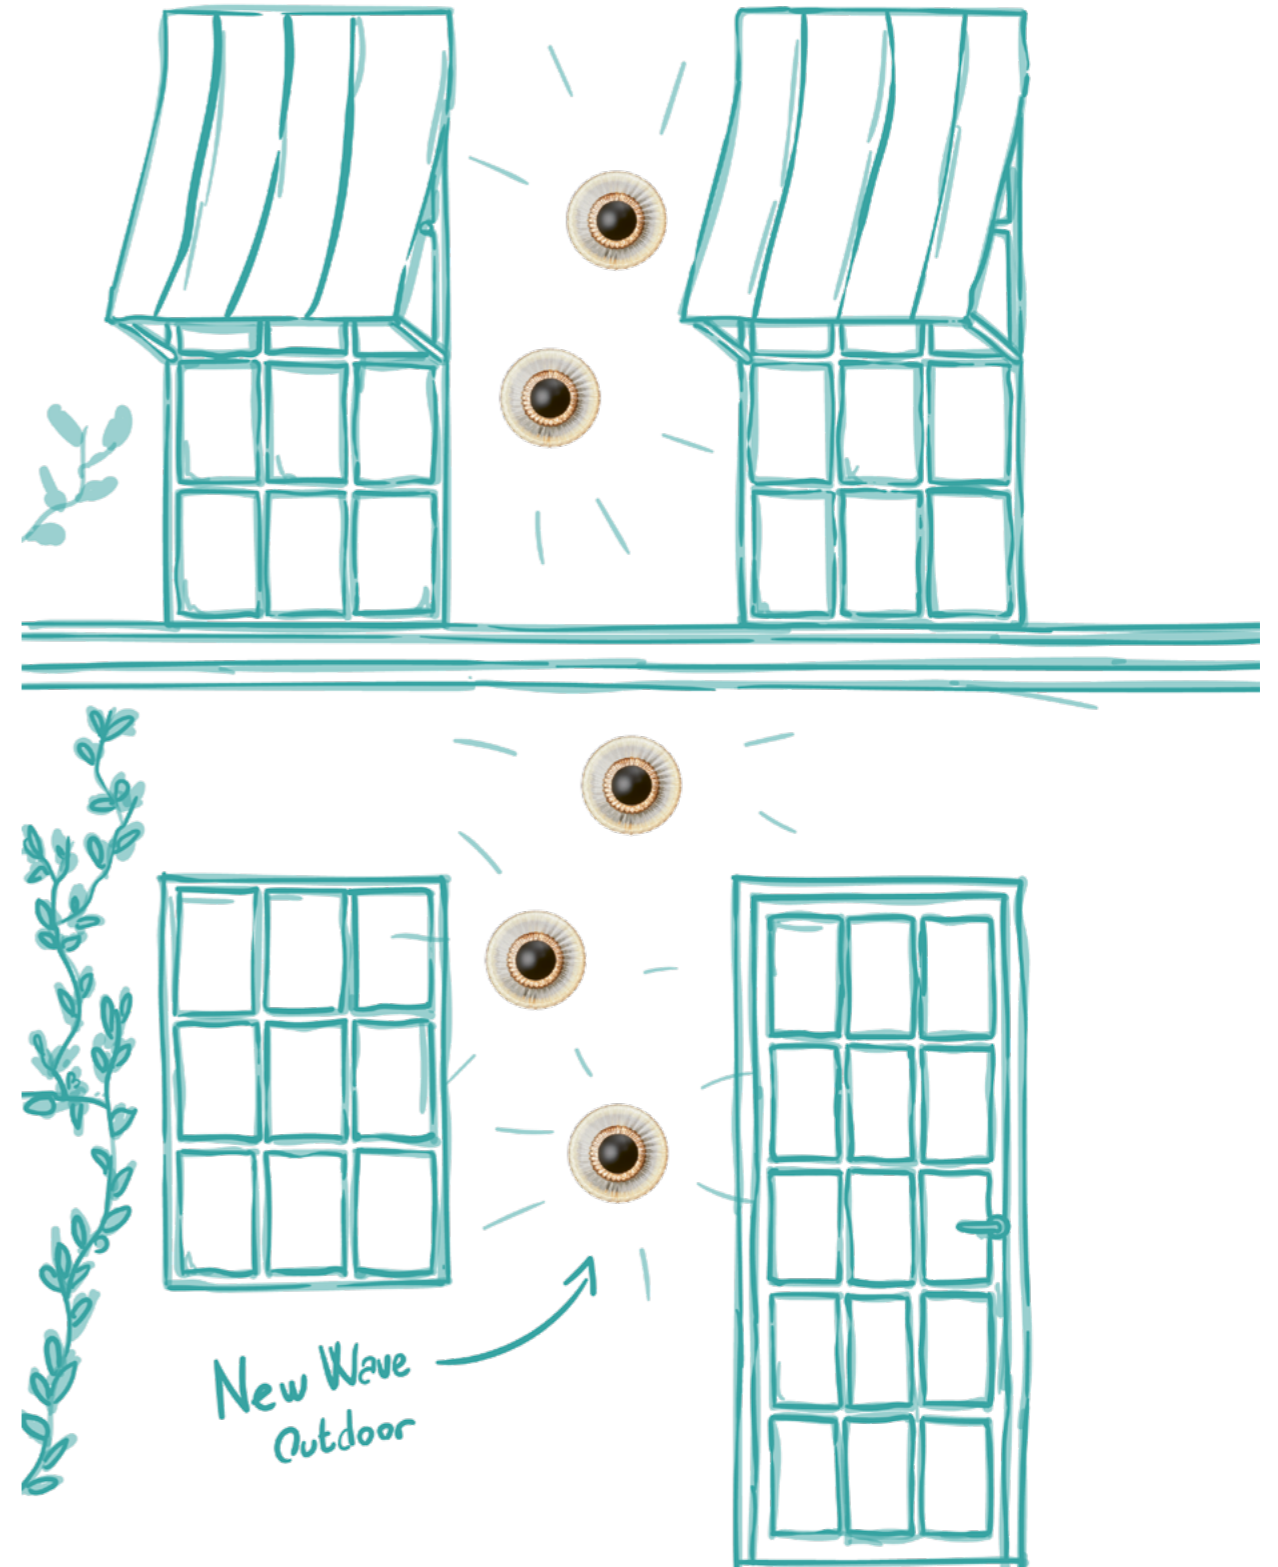

Marble Art is available in 5 colours. Charcoal, brown, golden, and sand with gold coloured metal and white with black coloured metal.

New Wave Optic Wall Outdoor

## TRIP

### PORTABLE ILLUMINATION

Clean lines and simple design in beautiful materials. We have thought about every detail in our new portable and rechargeable LED lamp. Trip's sculptural design in clean lines, combined with beautiful materials adds refined aesthetics and exclusivity.

Trip offers both outdoor and indoor illumination. Use Trip in the middle of the dining table, on a bookshelf, the window sill, on the nightstand or just take it outside - the possibilities are endless as there are "no strings attached".

The lamp can be set to 3 brightness levels, and the lighting time is approximately 30 hours on the midlevel.

IP44 Certified.

## NIGHT RIDER

### POWERFUL LIGHT EXPERIENCE

This bold and beautiful lamp will add character to any wall outside – or inside. The rough look in the yet classical material is the perfect combination.

The design will add a powerful light experience to the surroundings. The Night Rider lamp has deserved its cool name. The Night Rider is available in polished brass, raw brass and in black.

IP 54 Approved.

# TRIP

ANYTIME EVERYWHERE

## TRIP

ANYTIME EVERYWHERE

## NEW WAVE OUTDOOR

DON'T SETTLE FOR THE ORDINARY...

- when you can have the extraordinary - the iconic New Wave Optic Wall lamp is made in an outdoor version too.

The New Wave Optic Wall Outdoor lamp is designed with a mouthblown wavy glass and a coated aluminium front. It is designed to fit a variation of different facades and constellations and to take outdoor lighting to the next level.

The stylish and characteristic design makes this an outdoor lamp that will last for many years.

IP 65 rated.

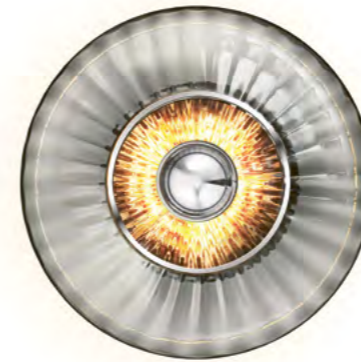

# NEW WAVE OPTIC WALL

New Wave Optic Wall in amber with Eyeball.

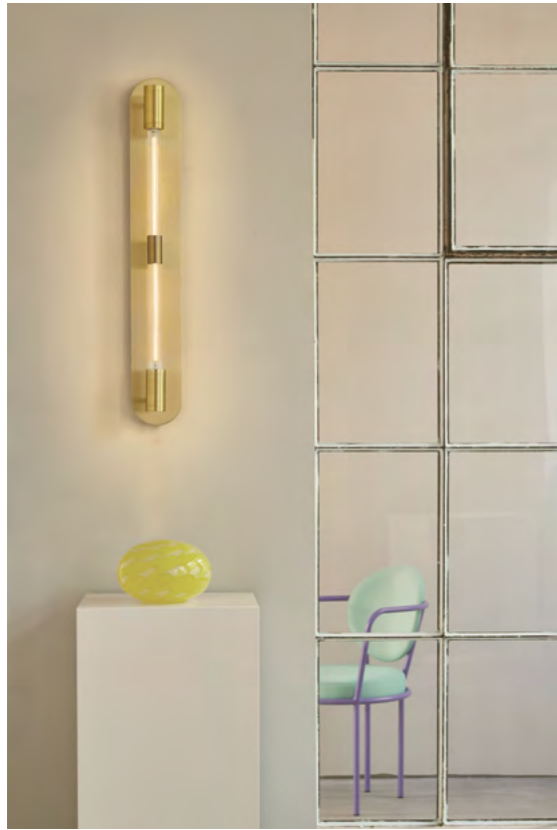

## NEW WAVE OPTIC WALL

### A TRUE WALL JEWEL

Our iconic New Wave Optic Wall lamp is designed to create an illuminating experience wherever it is placed. The mouthblown wavy glass has an amazing effect as it casts the light in beautiful waves on the wall. The clear Eyeball insert will intensify waves as shown here.

The New Wave Optic Wall Lamp is available in two sizes and in opal, clear, amber, rose and smoke.

## LIBERTY

### SIMPLE FUNCTIONALISM

The design of the Liberty lamp series is inspired by the idea of creating a modern lamp series with a clean cut lines and sharp profiles that match the Danish modern design tradition for the industrial combined with simplicity and functionalism. The lamp base is designed in simple lines, where the light source itself defines the design.

The Liberty lamp collection is available in brushed brass and in black powder coated metal and in 5 different designs within the Liberty series.

## BALLROOM

TIMELESS AND EXCELLENT

The Ballroom lamp is like a chameleon that fits into all environments and therefore we love it. The shape and the many colours to choose from makes it a favorite everywhere.

The Ballroom lamp series consists of pendants, wall lamps, a table lamp, a floorlamp and a chandelier - all with the well known mouthblown glass dome.

The Ballroom series is available in 7 colours and with gold or black base.

# PROJECTS

## OUR PROJECTS

Our designs are very suitable for projects too - whether it is lighting or furniture. We always work with certified materials and we can customize almost all of our furniture to fit specific interior designs.

Design by Us is all about challenging your perception of design - turn the obvious upside down and twist it. That is what we do - and we are good at it!
