Materials that age beautifully

Brass, corten, galvanized steel and copper change naturally over time. Their surfaces darken and mattify, developing a patina that enhances their appearance through the years.

nordlux®

Our vision

Our vision is to lift people's quality of life with light - by creating a lasting, positive impact through our products and actions.

Designed For Seaside

This range is crafted from highly durable materials that resist corrosion, wear, and weather - built for lasting outdoor use in any environment.

Durable materials

We use solid metals that develop a natural patina over time, as well as a special paint designed for extra protection in harsh conditions.

10- or 15-year guarantee

Our extended guarantees reflect the strength of the materials and our confidence in their long-lasting outdoor performance.
