Lighting with soul

Mokuren is the result of the first collaboration between Lladró and Japanese designer Naoto Fukasawa, who is known for combining craftsmanship and design.

For this work, Fukasawa has been inspired by the white magnolia tree, which symbolizes eternal bonds, and the striking beauty of its flowers. As the author himself says, "when I saw the flower and thought of white porcelain, its texture and qualities, I automatically composed the idea in my head." Thus, **Mokuren** was born, a chandelier that combines the essential ingredients of the work of the Japanese artist and Lladró: nature, craftsmanship and design.

All the flowers that compose **Mokuren** are handmade. The warm light that filters through the translucent porcelain of its petals generates an enveloping illumination. Its structure, as complex as it is poetic, represents the branches of the magnolia tree and is made of black lacquered aluminum. Its LED lighting can be regulated in intensity.

Mokuren is light itself and illuminates, it is Kogei (craftsmanship) and design.

Re-Cyclos

by Bodo Sperlein

03

Nature is in a constant state of evolution and regeneration... This was the basic principle behind the **Re-Cyclos** project which saw Lladró invite celebrated international designers to give life to new collections using the brand's signature elements and themes.

German creative Bodo Sperlein turned his attention to Lladró's mix of nature and fantasy to create a collection of chandeliers inspired by fairies in the **Niagara** version, and leaves in the **Magic Forest** version.

Niagara Gold

A Precious Cascade

Imagine a precious golden cascade of fairies suspended in the air... now imagine Lladró's artists lustering each and every one of them and setting them through a double firing technique to capture all the luminosity of these other-worldly creatures to create the stunning beauty of *Niagara Gold*.

Niagara White

A Dream in White

Gently floating down, a myriad of snow white fairies give the *Niagara* chandelier in white a dream-like quality. Ageless craftsmanship has been combined with the latest fibre optic technology to create subtle points of light that allow *Niagara's* fairies to burst into life.

With different versions of varying lengths, diameters and colours for the rosette, as well as the possibility of fixing it to the ceiling or by means of a suspension system, this stunning creation is just waiting for a new home.

Magic Forest

Leaves Faintly Falling

The opportunity for rest and rejuvenation is present all year 'round with the *Magic Forest's* beautiful cloud of faintly falling leaves. Hundreds of blissfully detailed glazed or matte leaves will leave onlookers spellbound with the magic of Fall.

The Parrot Party, tabletop and wall lamps. Pure and functional design is coupled with the elegance of Lladró works. The refined forms of the supports, reminiscent of the abstraction of a tree, contrast with the minute plumage of the birds.

The decorative potential of lovebirds, cockatoos, parakeets and parrots, their bright coloring and the carefully studied proportion all add to the realism of a scene in which it seems as if the birds have just alighted on a brief rest during their flight.

A Journey Through History

In Medieval Japan, the sandogasa, a large sun hat fashioned from straw, accompanied travelers on their long journeys across the country. It was these hats, and the traditional hairstyles that hid behind them, that inspired Japanese designer Hisakazu Shimizu to create this original collection of lamps.

Starting with their black satin wood bases and ending with shades made with layers of hand-blown Murano crystal, the sheer luster of these creations are sure to make an impression.
